

Malith Gamage

Intern - Software Engineer

✉ wgmgeewinda@gmail.com ☎ 0767705707 📍 Colombo, Sri Lanka

🌐 Malith Gamage 🔄 Malith-Gamage 🔗 Portfolio

PROFILE

BSc (Hons) Software Engineering undergraduate combining strong programming fundamentals with practical project management capabilities. Experienced in managing academic software deliverables using Agile/Scrum methodologies while building applications with Languages like Java, React, SQL. Seeking a Software Engineering Internship where I can leverage both clean coding and sprint-planning skills to deliver reliable, on-time software solutions.

EDUCATION

Sabaragamuwa University of Sri Lanka BSc(Hons) Software Engineering	2024 – 2028
Mo/Malwaththawala C.C. Advanced Level (Physical Science Stream)	2022 – 2023

PROJECTS

SkillForge 🔗 AI-Powered Gamified Learning Platform Technologies: Next.js, React, TypeScript, MySQL, OpenAI API, JWT, Tailwind CSS - Developed a full-stack AI-assisted learning platform that generates personalized learning roadmaps based on users' skills and career goals. - Implemented AI-generated checkpoints, daily learning tasks, resource recommendations, and adaptive task rescheduling to support consistent learning. - Built a gamification system with coins, badges, streaks, leaderboards, and community-based knowledge sharing to improve learner engagement. - Implemented custom JWT authentication, role-based access control, bcrypt password hashing, parameterized SQL queries, and validation for secure application access. - Developed expert session booking and coin-based redemption, connecting learners with industry experts for personalized guidance.	03/2026 – 08/2026
Byte Computer Store 🔗 Responsive E-Commerce & Hardware Storefront Technologies: HTML5, CSS3, JavaScript (ES6), Responsive Design, Swiper.js - Developed a responsive e-commerce web interface from scratch using semantic HTML5, modern CSS architecture, and vanilla JavaScript. - Built dynamic product catalog layouts with CSS Grid and Flexbox, implementing strict card-height synchronization and auto-aligning action buttons. - Engineered an interactive hardware specifications modal popup using HTML data attributes and DOM manipulation without triggering page reloads. - Designed a responsive mobile navigation drawer featuring an animated circular hamburger toggle with custom CSS keyframes and transitions. - Integrated a touch-friendly customer review carousel using Swiper.js and styled accessible newsletter and footer contact sections.	09/2026 – 09/2026

TECHNICAL SKILLS

UX Design Wireframing, Prototyping, User Flows	Tools Figma, Postman, VS Code, Canva, IntelliJ IDEA, CapCut	Programming Languages HTML, CSS, C, Java, JavaScript, Python
Frameworks and Libraries React.js, Node.js, Express.js, Tailwind CSS	Databases MySQL	Version Control Git, GitHub

SOFT SKILLS

Strategic Problem-Solving | Cross-Functional Teamwork | Clear Stakeholder Communication | Research & Analysis | Time & Priority Management | Adaptability

EXPERIENCE

Bank of Ceylon Intern – Banking Operations & Customer Service	2023 – 05/2024
